Objective

Georgia Tech Full-Stack Web Developer Bootcamp Graduate seeking a full-time position as Junior Web Developer while utilizing interpersonal skills, excellent time management, communication, and problem-solving skills.

Technical Skills

Frontend: React, HTML5, CSS, JQuery, Javascript, Bootstrap, AJAX, REST APIs

Backend: MySQL, MongoDB, Express, NodeJS, Handlebars, AWS, Webpack, GraphQL

Middle: Passport, Google OAuth 2.0

Other: GitHub, VSC, Insomnia, Heroku, Figma

Projects

goGirl | Repo: <https://github.com/rwood022/goGirl> | Deployed: March 2022

Co- Creator

- GoGirl is a social media app that allows for solo female travelers to connect with friends and family without jeopardizing their safety.
- Collaborated with a team to develop an application that allows the female solo traveler to share her location, photos, messages, and posts with her small, virtually protected, social circle. I pitched the idea to my team, developed an authentication Login using Google OAuth 2.0, and launched our application to Heroku.
- Tools/Languages: MongoDB, React, Google OAuth2.0, Passport, Multer, AWS-S3, React, CSS, JavaScript, Bootstrap, Node.js, and Express.js.

ShelterMatch | https://github.com/rwood022/Shelter_Match | February 2022

Co-Creator

- An application that provides an efficient way for potential owners to find their perfect dog.
- This project was the first full stack application developed with a team in the Georgia Tech Bootcamp. I created the api routes, developed seeds data, created the README, and designed our Figma- layout.
- Tools/Languages: Node.js, Express.js, MySQL, Handlebars, JavaScript, Passport, Heroku, and Figma.

NuMu. | https://github.com/MattpLawrence/YouTube_Music_Finder | January 2022

Co-Creator

- NuMu is a random music video generator that plays without the use of your playlist algorithm.

- Created an application with a team using Kareoki and Youtube API calls. I developed the API to the artist info, developed the search video functionality, and designed the initial wireframing.
- Tools/Languages: JavaScript, HTML, CSS, JQuery, Karaoke API, Youtube API, and Figma.

Work Experience

Dual Chiropractic & Rehab, LLC

May 2021 - Present

Owner, Chiropractor

Atlanta, GA

- Manages business accounts, website, and patient schedule.
